**RAILROAD BOARD
REJECTS APPEAL**

Railroad Board
rejects Appeal

Wage Board Declines to Abro-
gate Working Agreements

SURPRISE TO BOTH SIDES

Conspiracy Charged by Union
Spokesman—Railroads Seek To
Establish Autocratic Control,
He Declares.

Chicago.—The United States Rail-
road Labor Board rejected the ap-
peal of the Association of Railway
Employees to immediately abrogate all
working agreements and also re-
fused to authorize a cut in wages in railroad
laborers.

"It is obvious that the board cannot
accept the demands of the railroads in
view of the reasonable nature of the agree-
ments, rates and working condition in
effect on each railroad as of December
1, 1917, that such agreements, rules and
working conditions would constitute
just and reasonable rules and working
conditions today in the rail-
road industry to the present dispute,"
the board announced.

"To make such a decision without
evidence and careful consideration
would be an affront to the railroads and
would frustrate the purposes of the Transportation
act."

"The board must also deny the re-
quest that the prevailing rate of wages
in railroad labor be applied to rail-
road laborers."

Employers Charge Conspiracy.

The Association of Railway Employers
declared after the board's decision that
Mr. J. Jewell, president of the
Railway Employees' Department of the
American Federation of Labor, made a
statement in which he charged that railroad
laborers had conspired to wreck
union labor in an effort to restore to
capital autocratic control of the work-
force.

Jewell asked the board to postpone
further consideration of the appeal of
Gen. W. W. Atterbury, representing
the roads, for immediate abrogation of
all working agreements to prevent
the evidence the unions will present
from being taken up the charge of com-
spiracy.

Atterbury charged that Atterbury's ap-
peal for abrogation of the agreement
to cut wages in railroad laborers was
not yet ready for hearing. He said
that the union leaders were timed in
view of stampeding the board into tak-
ing a position on the matter.

The appeal, according to Jewell,
was made just when the entire
case of the management was pre-
sented to the board, was designed also
to prevent the board from taking
any action on the matter.

Convince the public that high freight
rates, fundamentally due to past
financial irregularities and anomalies
of railroad management, should be at-
tributed to present organization of
railroad employees.
